Elba Hospital  
Holds "Disaster  
Drill" Tuesday

In case of a disaster, Elba General Hospital is ready to swing into action to aid victims.

Administrator, Lowell Benton said the hospital's emergency capabilities were put to the test Tuesday October 13, 1970 when staff members in all departments participated in a "disaster drill," an actual simulation of what would be required of hospital in case of such an occurrence.

In addition to Elba General Hospital, local Police Department and Elba Rescue Squad activated disaster preparedness programs.

The drill Tuesday at Elba General Hospital was one in a series of disaster drills held by hospitals statewide, timed at 4:00 P. M. to test emergency capabilities. Several hospitals and facilities in neighboring states also participated in the drill.

Mr. Benton said the "Disaster Drill" procedure is the most effective way to test hospital's ability to respond to an emergency. "I am well pleased with the performance of Elba General Hospital staff members during Tuesday's operations," he said.

Heading the program of statewide coordination was Duane T. Houtz, Administrator, Baptist Medical Center - Montgomery, Birmingham. He said the co-operation of hospitals and other emergency facilities across the state is a major step toward the coordination of facilities on a regional statewide basis.

Kenneth Hudson is the coordinator of the disaster drill at Elba General Hospital.

The three Elba doctors participated in this drill.

KLEINERT'S RIBBON CUTTING performed by Mayor Jack Brunson while Board Chairman Jack Briar, right, and President John Stephens, left, look on. There were approximately 2,500 people who toured

the huge plant Sunday following the dedication speech and ribbon cutting ceremony. The visitors repeatedly expressed amazement at the size of the plant. They were favorably impressed with the variety and the beauty of the many colorful and useful items produced in the Elba plant. The employees break room was a popular stopping place also, as soft drinks, coffee and a long table of snacks were provided for the visitors.

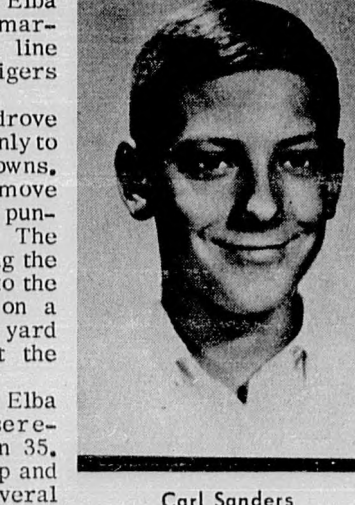

## Elba Defeats Enterprise

The Elba Tigers returned in true Elba Tiger form last Friday night, and defeated the Enterprise Wildcats 15-6. The decisive defeat of the big 4-A cross-country rival came on the heels of last week's upset loss to Brundidge. This win over Enterprise extended the Tiger record to 5 wins and 1 loss on the gridiron.

Elba won the game both in the score and in the statistics department, leading up 302 yards rushing and 13 first downs. Elba completed only one pass for 19 yards and six points. Elba received 55 yards of

## Crime Lab In Enterprise

A crime laboratory, serving a ten-county area, will be located at Enterprise State Junior College, the Alabama Department of Toxicology and Criminal Investigation released in a recent letter to B. A. Forrester, president of the junior college.

The ten counties to be served by the Enterprise branch lab are Barbour, Butler, Coffee, Covington, Crenshaw, Dale, Geneva, Henry, Houston and Pike.

At present Alabama has five crime labs scattered throughout the state—the main office at Auburn and branches at Mobile, Birmingham, Huntsville and the Montgomery, Enterprise

will make the sixth.

Auburn will provide the lab equipment for the Enterprise crime lab.

In addition to assisting investigation at scenes of crimes, analyzing drugs and examining firearms and other items of evidence, this regional office will assist in training programs for area police.

Carlos L. Rabren, Auburn toxicologist, and A. Lamar Miller, who will be supervisor of the Enterprise branch crime lab, visited the ESIC campus to discuss facility needs to be built for the lab.

Rabren mentioned that autopsies will be performed at locations other than the campus.

"The crime lab is the practical application of some of the subjects the police science students are learning. The students will be able to learn by first-hand observations," he said.

Lill explained that evidence brought to the crime lab for analysis would be handled by the state experts in that field. However, operations could be observed by students.

"This is the best thing that could happen to our police science department," Lill said. "It will provide an excellent opportunity for education and training in collection, handling and preservation of evidence."

Lill, former FBI agent who joined the ESIC staff this fall, is also training director for Region VII of the Alabama Law Enforcement Agency.

On the next play Elba fumbled and Enterprise recovered on their own 35.

### Scenes At Open House

Activities at Kleinert's Sunday afternoon during open house created a lot of interest as can be seen by these pictures. Groups were seen during the open house hours looking at the many items in the Kleinert's Manufacturing Company.

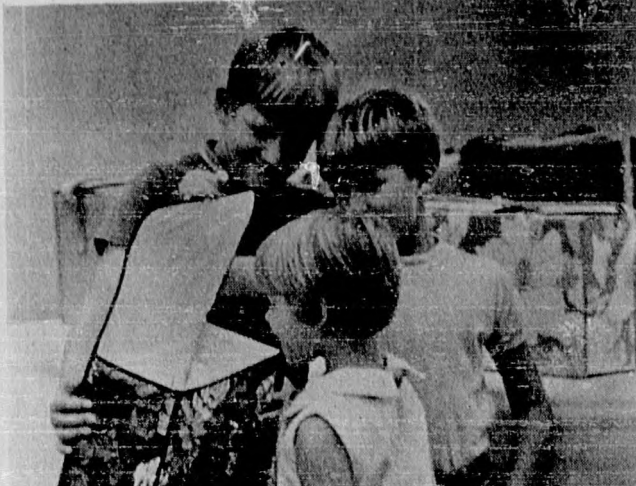

Not only the grown-ups but teenagers and children enjoyed looking over the big building and many items. Look at the three children who are very excited and concerned as they look at a colorful "diaper bag" which could also be used as a beach bag.

Teenagers are seen enjoying the bright colored shower curtains.

Sam Sawyer, member of the Elba City Council and also served on committee to get this factory to Elba, and Charles Lowman of

all was the refreshment table surrounded by a large group which continued throughout the afternoon.

## TOUR OF THE ORIENT

By Mrs. Kimmy

A visit to Tokyo is not complete without a night tour. The neon lights, the Japanese "man-made flowers" are many and varied. Our tour ended in the Matsuyama Coliseum, the most famous in Tokyo. We left our shoes at the door and sat on cushions on the floor. On the stage there was a performance depicting a private geisha party. Five girls beautifully dressed in kimono and obi (sash) performed the tea ceremony for a man from the audience. Their faces were very white and they did not change their expressions. The heavy make-up comes from the days when candles furnished the only light. The next day we had a most interesting trip by bus to Mt. Fuji. This is Japan's highest mountain being 12,388 feet. It has the sloping conical shape of a volcano, which it is. The last eruption was in 1707. We stopped about half-way up the mountain where the road ends. The rest of the way is traveled on foot. A shrine is on top of the mountain as Mt. Fuji was once worshiped as part of the shinto religion. It is no longer worshipped but the Japanese still like to visit it and we found many people at the bus stop even though the weather was not good. While we watched, the clouds moved away long enough for us to see the top. We had lunch a few miles back down the mountain in a ninety-five year old hotel. Three sides of the dining room were made up of windows so that wherever you sat you could see the mountain. At our table were a Chinese family of tourists and an American serviceman on leave from his station in South Japan. After lunch we drove around the southern side of the mountain where we saw fields of mulberry bushes, whose leaves furnish food for the silk worms. Here is the center of silk-making in Japan. There were also many fruit trees. Although the highway is new and modern it goes up and down the mountain.

## Senior Of The Week Phil English

That's right you're the lucky one this week, Phil. Out of over one hundred seniors you were elected from a group of four. Phil, who is a tall, handsome, six-footer, was elected October 8. He has been very active these past few weeks showing the football team how to really do whatever the center does. He is also in the Beta Club so he must do to stay in this club—after football practice. Go get 'em Phil. Since he is on the Elba Varsity Football team he is also in the Mu Alpha Theta, which is an honorary society. Yeah! Phil!

Phil's opinion of school is "Where you come to prepare yourself to enter into life's problems." He thinks that to become a better school we should have "better equipped classrooms and smaller number of students in each class." As to his interests—after school he plans to become a "millionaire." However, he probably will go to college to prepare himself for this task.

Girls you had better pay attention to this next one. Phil's pet peeve is "being accused of something I didn't do." He also thinks that a girl "should be honest, dependable and hard-working." You had also better shape up because his favorite interest is hunting and his favorite hobby is hunting. Phil's parents are Mr. and Mrs. H. F. Bone, his grandparents are Mr. and Mrs. J. W. English and Mr. and Mrs. T. J. Bryan.

THE CHURCH FOR ALL  
ALL FOR THE CHURCH  
The Church is the greatest factor in our life for the building of character and good citizenship. It is a source of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Flight Bag Sale Proves To Be Success

The Elba French Club has been making sure that everyone who travels will not go without a travel bag. Mr. Randle Johnson from NASCO came to the Club during a regular meeting on September 29, to ask if we were interested in selling travel bags with the Tiger emblem. It was apparent that everyone was in favor from the response we had.

Sells began on that day, September 29, and lasted through October 2. After totaling the results we found that the sale had brought in over \$1900 in travel bags. The whole French Club is very enthusiastic about this, especially since this is the first money-making project the French Club has ever had. Our sponsor,
